Exceptionally annoying. Noisy. Poorly made.
Don't bother.

<https://youtu.be/V8CfhrbUxDrY>. Zero Players. Not kidding, zero players on any server. Worst single player game. Brings back memories of the old marble madness (minus the aggressive AI marbles) and has a portal flavour to the graphics. its entertaining. easy to jump in and out of as time allows and offers a nice selection of increasingly complex puzzles.

[Nicely done.. Its like Star Wars but better. Great game in the in Sinclair ZX Spectrum style. Lot's of references that only those who were there back in the day will get. My only complaint is that I wish I could reduce the volume of the sound effects so I could hear the music.](#)

Great game just the same as 15 years ago.. :) Picked it up for 0.50, totally worth. Still some little bugs but the game is cute overall :D. I suck hard at this game, while my wife is a goddess at it. Still, it's fun. Think fast! Woops, too late. You shot that colored ball at the wrong spot, or hesitated a moment too long, or something. Or you just plain failed to do enough complicated things to get the balls to move backward a bit, often enough to avoid losing (as the levels get harder and harder).

This game makes my head explode, but it is very well designed. Simple and fun, with plenty of challenges.. Not the best of the genre - not the worst of the genre. Part 1 was better. Actually had hidden object scenes this time, though the hint mechanics were pretty useless this time.

ID Enjoyed the scavenger hunt though. This is only a 5 minute demo. For \$30. Don't bother.

The full version is locked because of Steam and there's no way to get the full version.. You can enchant unicorn boots using unicorn poop. 10/10. This cat can kick you and your dog's♥♥♥♥♥ Repeatedly. Best cat hero since Battle Bruise, and my personal hero, Fritz the Cat, who liked to have tub orgies. He later got hooked on drugs and S&M sexual domination. OH! And Toonces the Driving Cat. Forgot about that crazy feline. AND!! ! --> F.E.C.U.S. ... he was THE beast. Fatal Embryo Created Urban Sickness. Not sure what happened to that feline of paws destruction. Likely Heroin(e) addiction was its downfall.

Great game this is, if it is, in fact, a game... Only time will tell.... I very much enjoyed this demo, although I think it'd be really cool at the scene where you can hear the car crash, that on the other end of the hallway bright head lights come flying out at the player. Congrats, good job on this devs! Great to see more horror games on the Vive and so excellently done, first game I've seen with the grip button arm swaying locomotion technique. Well done.. I buy the dlc and I only have a character that is normal ?? An interesting take on the whole "How far would you go" question. And to which, just how far WOULD you go? Go in blind. Just knowing this alone is all you'll need, it's an experiment of morals, judgement and character. To know anymore then what's on the storepage would spoil you of the experiences. All I can say is experience it for yourself, don't look here for spoilers. It's better that way!
